COMMENTS FROM THE

TOWN MANAGER'S OFFICE

The Highway Department still is

planning to pick up rubbish next

Monday, May 7. If anyone has items

that might require special handling,

such as heavy material, please call

either the Town Office or arrange

and alert us. We will not remove

motor vehicles.

Five dog owners were summoned

to court this week for allowing their

animals to run at large. We intend

to continue serving summonses ra-

ther than impounding dogs, as the

impounding has proven to be very

nearly ineffectual helping to control

the animals.

Although we have and will continue

to receive criticism from the in-

dividuals who are fined as a result

of the new policy, we feel we have

been too lenient in the enforcement

of the ordinance passed in the 1971.

It is not difficult to defend our

actions when they are carried out as

provided in an article voted on at

a town meeting. It is the intention

of all concerned to be impartial in

the enforcement of this regulation.

There will be offenders who escape

as some do from other rules but re-

asonable efforts are being made to

make the ordinance effective.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The Highway Department still is planning to pick up rubbish next Monday, May 7. If anyone has items that might require special handling, such as heavy material, please call either the Town Office or arrange and alert us. We will not remove motor vehicles.

Five dog owners were summoned to court this week for allowing their animals to run at large. We intend to continue serving summonses rather than impounding dogs, as the impounding has proven to be very nearly ineffectual helping to control the animals.

Although we have and will continue to receive criticism from the individuals who are fined as a result of the new policy, we feel we have been too lenient in the enforcement of the ordinance passed in the 1971. It is not difficult to defend our actions when they are carried out as provided in an article voted on at a town meeting. It is the intention of all concerned to be impartial in the enforcement of this regulation. There will be offenders who escape as some do from other rules but reasonable efforts are being made to make the ordinance effective.

POPPY POSTER CONTEST

FOR GRADES 4-5-6

AND SPECIAL ED. AT C. P. S.

The Auxiliary of the Mundt-Allen Post, American Legion, is announcing the Annual Poppy Poster Contests for grades, four, five, six and Special Education at Crescent Park School.

The completed posters will be displayed in the windows at local stores and the winners will have a special display at the post office.

The contest has many values. It arouses Poppy Day interest among the school children and provides good posters for local advertising of Poppy distribution. The contest has been on the approved list of national contests by the Association of Secondary School Principals for many years.

There will be cash prizes for the first, second and third place winners which will be awarded on Monday, May 28, during the Memorial Day exercises conducted by the Mundt-Allen Post, No. 81, American Legion. There will also be a National Prize of a \$100 U. S. Government Bond for the best poster in each class chosen later this summer. Judges for the local contest are Mrs. George Bowhay, Douglas Bane, Mrs. Owen Wight of Newry, and Woodrow MacArthur of Gilchrist. Any children wishing more information on the contest should call Mrs. Buel Swain.

Poppy Distribution Days this year will be Friday and Saturday, May 18 and 19. Ninety percent of the money donated will be used locally to aid veterans and their families. Last year two veterans' families benefited from this fund.

TELSTAR R. H. S. NEWS GREENWOOD CITY

STUDENT COUNCIL NOTES

The Student Council will soon be holding elections for next year. The new council and their new advisor Mr. Otero, will take over immediately after the election. Mr. Otero has met with this year's council and has gotten an idea of what goes on.

This past week end we had three representatives at the State Student Council Convention. The convention had a workshop on student rights and one on career planning. Both of these workshops gave our council some new ideas which we hope to use effectively. The convention also gave us a chance to look at Telstar comparatively with other schools. In past years we have been amazed at the advantages we have here. Lately, however, Telstar has made fewer changes than many other schools who are now experimenting with career planning, open campuses, and have smoking rooms.

A new experience happened for many Telstar students this past week end who were involved in the exchange concert with Calais. Everything went so smoothly that I see every chance of this becoming an annual event.

So far our spring sport season is looking as well as it did in the fall. Both the track team and baseball team are undefeated. Girls' track and softball have not competed yet.

In a length-wise direction. The dingy flowers which appear in June rarely attract attention, unless by their lack of beauty.

At my feet the mare's tail had pushed to a height of three inches through the layer of leaves.

Near a hollow which was watered by a clear gurgling brook, myriads of trout lilies or dog tooth violets stood; each guarded by a pair of mottled, erect sentinel-like leaves.

I was enjoying immensely the change from storm and winter to serene spring weather with brightness rather than dark, sluggish hours.

Around the next bend . . . a patch of snow, a reminder of what recently had been.

To my left were ledges, and so I looked for something singularly fragile and spring-like; its heart-shaped blossoms nodding among pale sage-green leaves, the Dutchman's Breeches. There were none. But mine at home, given to me last year by a friend are in full bloom.

Birds, like lively little pieces of gauze moved above me.

A little farther up a slope to the left were the only trailing arbutus in this area. Its evergreen leaves made a perfect background for the few clusters of five petaled flowers. They are one of my favorites so I had to lie down on the soggy ground to smell them. How sweet they were! Prettier here in their own setting towered above by pine and spruce rather than in a vase. There was something else; what was it? At once I had the answer. It was the

Traveling in quest of beauty, one is saddened, or should I say maddened sometimes by a mass of rubbish piled at the foot of an ancient tree or litter here and there as here, today, and I thought "Where every prospect pleases, and only man is vile".

I continued my lonely way on this day and in this climate wherein the world seemed to have reached perfection.

Down in the gully at the right were rank masses of Indian Poke. It has a single stem with broad clasping leaves which are heavily ribbed

smell of earth and water, touching somewhere a familiar chord of memory.

I continued on until I came to a branch of the brook I had fished, in the past. Satisfied now that I knew where I was I turned back.

Looking up at me was a wake robin. If uncertain as to whether the spring had come to stay there was no lack of confidence in its brilliance. It seemed to force upon me the welcome news that the time of birds and flowers is at hand.

The way back to the main road seemed shorter.

A huge bumble-bee bumbled back and forth before me prolonging this drowsy murmur. I waved him away when I thought he was about to perch upon my nose.

Nearing home, the water sparkled in the sunlight of this bright April day while above on the hills and mountains, the forest blazed in its coat of various greens while fringed with maple red.

Doris Hayes and Colista Morgan attended the OCRT at Bethel on Saturday.

Callers at Edla Tamlander's were Mr. and Mrs. David Seamon, Norway and Mr. and Mrs. Gilbert Dunham, Locke Mills.

CO-OP CORNER

by Suzi Redman

Kathy Jo Morrill is a nurses aide at Ledgewood Nursing Home in West Paris. She is a junior this year at Telstar Regional High School.

Kathy Jo has always wanted to be a nurse, and she likes the contact with people. The nurses aide job makes her feel that she is doing something to help others.

The experience on the job has taught her not only responsibility, but something about people as well. A nurses aide is responsible for what happens to a patient left in her care, and their well-being is a large part of it. Kathy Jo has found that each person has different needs, a different personality, but that everyone has one basic need—someone to care for and about them.

At first she had to get used to being around the elderly, but now Kathy Jo is concerned that "patients are people, not as some think of them, who haven't had contact..."

As a nurses aide, Kathy Jo feeds the patients, bathes and gives them whirlpools, does hair-dos, and in general, keeps them as comfortable as possible. She works Fridays, 7:30-3:00, and she hopes to continue to work there over the summer. She has learned medical as well as per-

sonal aspects about the job; getting along with others; how to work with the elderly; and how to work with the co-op program is a great opportunity to find out what patients are like, and what you want to do for the rest of your life; also that handling a full load of subjects is not much trouble. She wants to become an LPN after graduating at the half-year mark next year and planning to attend nursing school.

Kathy Jo likes to horseback ride and owns her own horse. She was a cheerleader this year, and is a member of the Spanish Club. She recently visited Disney World over April vacation, in Florida.

She has previously worked at the Half-Moon and the Red Lantern, and had done baby sitting jobs for NTL.

Kathy Jo has six brothers and sisters living at home, two others who are married, and she has three nieces and two nephews. She is the daughter of Mr. and Mrs. Elmer Bean of West Bethel.

Maurice Beaupre is a surgical patient at the Rumford Community Hospital.

Mr. and Mrs. Hollis Grindle visited Mrs. Rita Walker, Mechanic Falls, on Sunday, April 22.

CARD OF THANKS

TELSTAR PHYSICS — Shown in the picture above are Randy Littlefield, Ross Swain, Terry Berryment and their great sundial! This was made to fulfill part of their unit four group contract which was labeled as major project at Telstar Regional High School. Randy did the designing, Ross the constructing and Terry the painting of this 140 lb. sundial. Many found this group project very educational when it came to test time and there was a difference of opinion. One had to defend his answer! The contract has ended, the groups split, and by the exceptionally high ranks have once again proven that Physics is Phantastic!!!
